Please specify the vehicle model and year

Galvanized Steel Camping Box

Solve Road Trip Camping Needs

Provide solutions for cooking and resting during outdoor trips

Complete Travel Equipment

Split Box Design

Mini Kitchen

Simply and fully equipped

Simple sink area

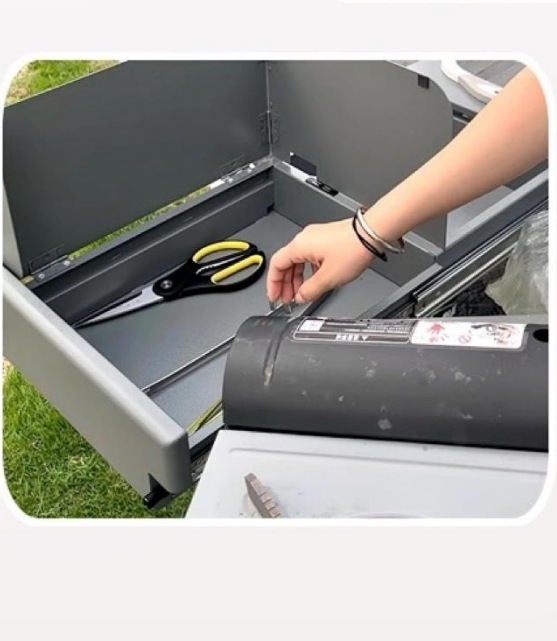
Foldable basin and electric water pump for washing hands and vegetables

Storage area

Space for storing cutlery and utensils, compact capacity

Cooking area

Cassette stove holder
Foldable windscreen blocks grease and wind



Storage area

The bottom of the cassette stove holder also has a small storage compartment

Large storage capacity

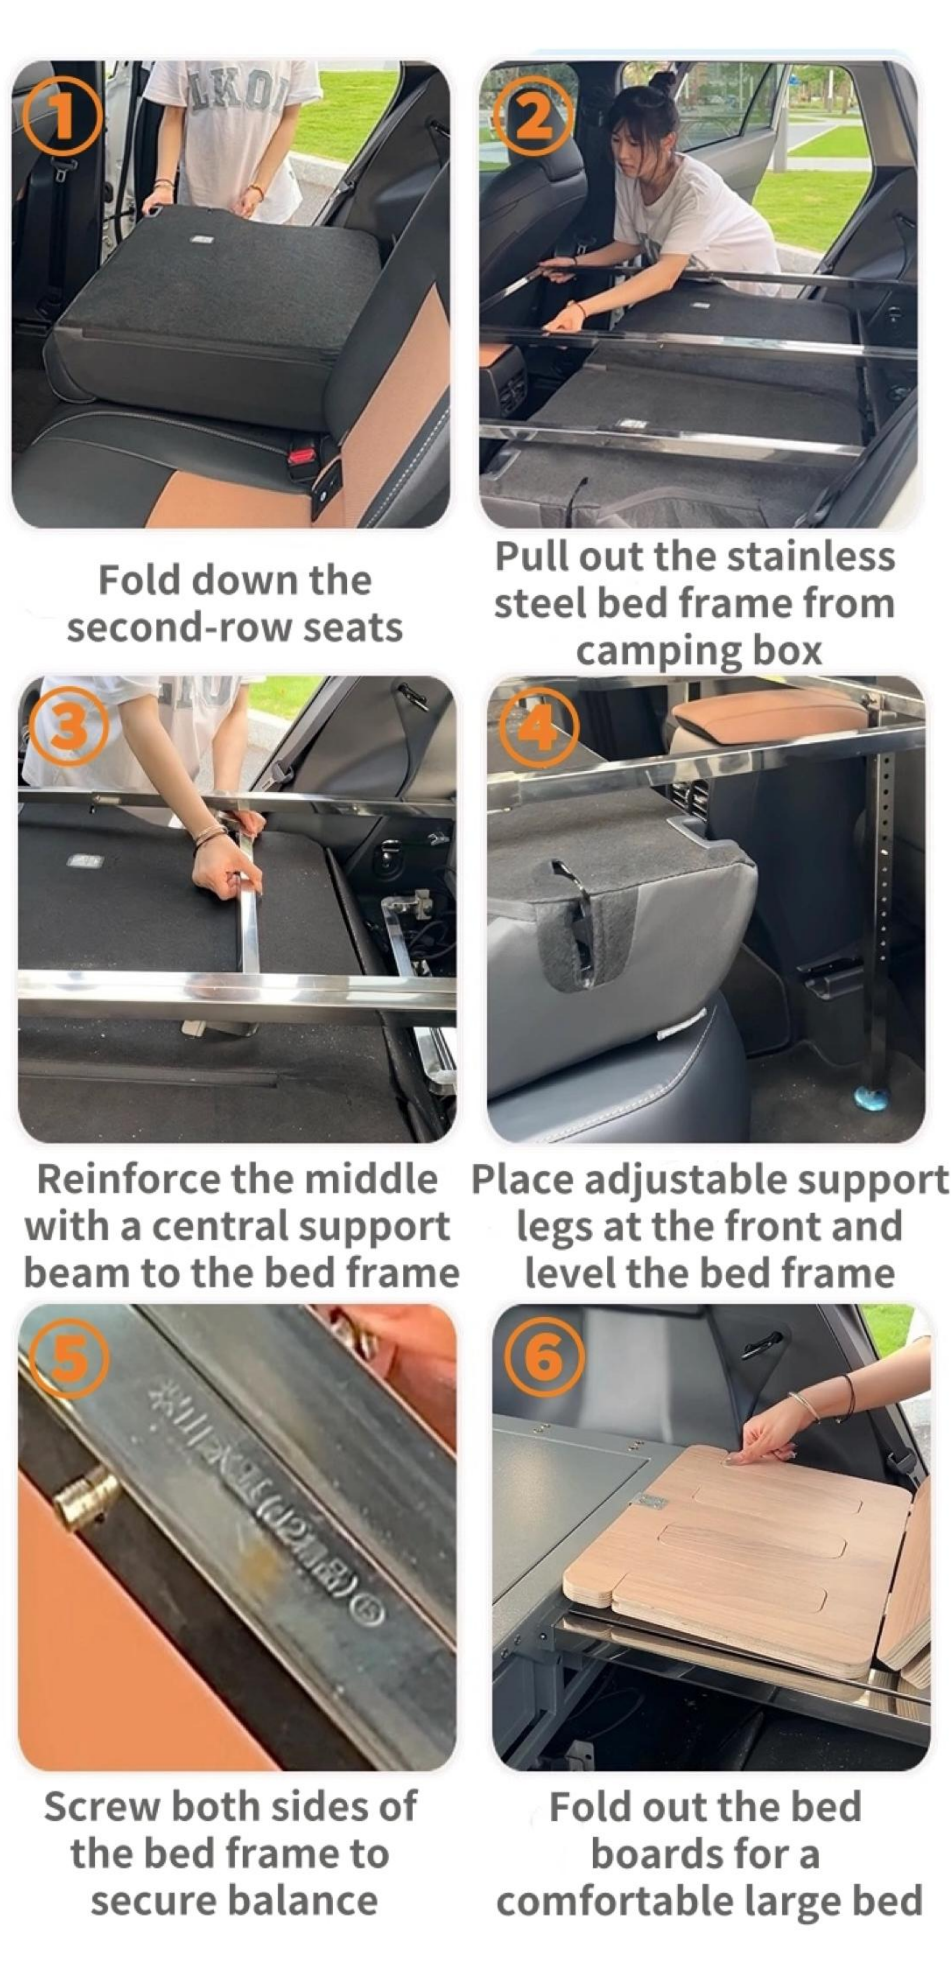
Push-pull cutting board

Drawers with locking function

No need to worry about the drawer sliding accidentally, providing better stability and safety of the product design

Transform your vehicle into a comfortable home

Adjust the sloped second row to meet the need for a level sleeping surface



① Fold down the second-row seats
② Pull out the stainless steel bed frame from camping box
③ Reinforce the middle with a central support beam to the bed frame
④ Place adjustable support legs at the front and level the bed frame
⑤ Screw both sides of the bed frame to secure balance
⑥ Fold out the bed boards for a comfortable large bed

Hidden Foldable Table

Before Unfolding
After Unfolding

Wooden Bed Board

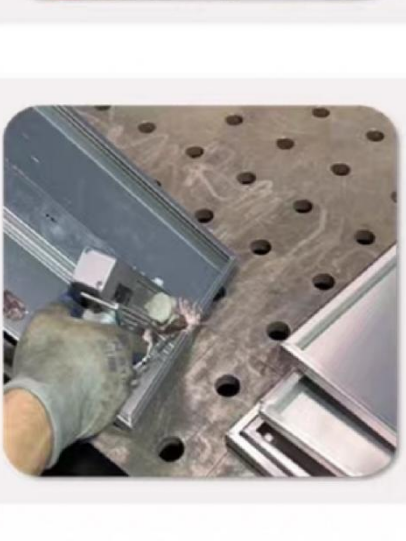
Carefully crafted by skilled workers

Highlighting exquisite craftsmanship and quality

Heavy-duty industrial rails
Standard market rails

01
High-temperature powder coated
/
Eco-friendly, odorless, with powder coating and high-temperature baking for corrosion resistance and a smooth finish.



02
Semi-arc bending process
/
The semi-arc bending process greatly reduces the risk of accidental scratches or cuts, ensuring higher safety.

03
Laser spot welding process
/
Achieves highly precise welding with minimal seam gaps and superior quality.

04
Precision grinding and polishing process
/
The surface is polished to remove burrs, making it smoother and more even, achieving a higher gloss and smoothness.
